

Design System
cinematic, editorial, restrained.

Quiet UI. *Loud work.*

The interface stays dark, spacious, and restrained; the videos are the color.
Every choice below exists to make the work, not the website, the hero.

The luxury is in the space

Generous margins, airy nav, calm rhythm. Lean emptier; do not fill every spot.

One cinematic moment per page

The preloader is the boldness. Everything after it is a quiet reveal.

Motion serves comprehension

If an animation does not aid hierarchy or storytelling, cut it.

Clarity over cliches

No hooded hackers, no padlocks. We visualize the real system.

The wordmark

MOTION
FLOW

ALSO THE FAVICON (APP/ICON.SVG) AND SOCIAL MARK

Source of truth

public/logo.svg in the site repo. The mark is an outlined SVG; it scales to any size and inherits any color.

Never rebuild it with fonts

The lettering is custom-outlined. Font approximations are retired and banned.

Color

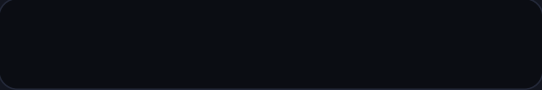

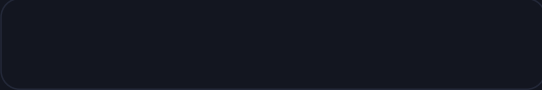

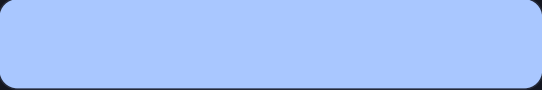

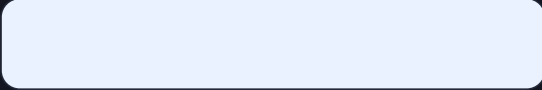

Near-white #F5F7FA on dark. On the rare light surface, use near-black #0B0D13. Never blue, never gradients.

Clear space

Keep at least the height of the FLOW line clear on all sides.

Monochrome dark, one blue

Essentially a black-and-white site. The only color is soft light blue, and it appears exclusively on buttons, glows, focus rings, and active states. No purple, no electric blue, no neon.

 Ink #0B0D13 Page background	 Panel #131620 Cards, surfaces, embeds	 Hairline #232838 1px borders and dividers
 Hairline + #3A4156 Border hover, brightens never thickens	 Text #F5F7FA Primary text, never pure white	 Muted #9BA1AD Secondary text, captions
 Blue #A9C7FF THE color: CTAs, glows, focus	 Ice #EAF1FF Light end of button gradient	 Tide #6C85EB Liquid gradient only, never UI

Three voices, *one register.*

Launch videos that make
cybersecurity *make sense.*

ZODIAK · DISPLAY & HEADINGS · ITALIC IS THE EMPHASIS MOVE

We turn zero trust, threat detection, and complex security products into short, clear videos that convert.

GEIST · BODY & UI · 400/500 · LINE-HEIGHT 1.6-1.7 · MAX 48CH

MOTION STUDIO · CYBERSECURITY

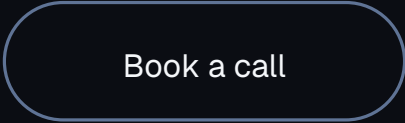

GEIST MONO · EYEBROWS & LABELS · UPPERCASE · TRACKED +22% · RATIONED

Scale

Hero H1	42-74px · Zodiac
Section H2	48-84px · Zodiac Italic
Card title	20px · Geist 500
Body	16-18px · Geist 400
Caption	15px · Geist · Muted
Label	11px · Mono · +22%
Wordmark only	Anton (footer sign-off)

Pills, panels, *hairlines*.

Shape system: interactive elements are pills, containers are 14px radius, borders are 1px hairlines. The button hover overlay is the interaction signature.

Book a call

DEFAULT · GHOST + BLUE HAIRLINE

Hover: a light ice-to-blue fill rises from the bottom edge, text flips to ink. 300ms expo-out, slight lift.

Book a call

RESERVED · GRADIENT CHIP

For rare high-emphasis moments. Hover: diagonal white shimmer sweep.

EXPLAINER

LAUNCH

2D

3D

DEEP TECH

TAGS · MONO PILLS · FILTERS TAKE THE BLUE ACTIVE STATE

Work card

Wafersight

A dense data platform, made clear in 60s.

- 16:9 poster, lazy image first
- Muted autoplay on hover ONLY
- Hover: lift -4px, blue-tint shadow, zoom 1.04
- Serif client, one-line outcome, tags

Glass icon chips pair with the Process and Why sections.

A few beautifully *executed moments.*

Preloader

Two light streaks slide in and stop at the logo's edges; a glow blooms at contact and holds as the logo forms. 2.3s, then a 0.7s dissolve into the hero. Hand-film slots: /video/hand-left.mp4 + hand-right.mp4.

Text reveals

Headlines rise line-by-line inside masks with a touch of blur-in. 600ms per line, 90ms stagger. Paragraphs and sections fade + rise once, on scroll.

Button overlays

Secondary: light fill rises from the bottom. Primary: diagonal shimmer sweep. 300ms.

Ambient

Liquid gradient drifts behind the hero with a 9s breathing glow. Client names float in a masked marquee.

Timing

150ms	micro: tag hovers, color shifts
300ms	hover: buttons, cards, overlays
600ms	reveal: text lines, section rises
2200ms	the one cinematic moment

ease: cubic-bezier(0.16, 1, 0.3, 1)

Non-negotiables

- prefers-reduced-motion: transforms drop, fades stay
- Video: posters first, autoplay muted on hover only
- 60fps or the effect gets cut

Lean emptier.

Grid

Max container 1280px. Section padding 128-176px vertical. Content column caps at 48ch for reading.

Navigation

Airy 72px bar: wordmark, Book a call, and a side-drawer menu with big serif links (hover: text turns blue).

CTAs

One intent, one label. 'Book a call' is the only conversion CTA and appears identically everywhere.

Copy register

Plain verbs, sentence case, no filler. Buyers do not fund what they cannot picture; say the concrete thing.

Texture

4% film grain site-wide. One soft blue glow per viewport, behind anchors, never behind body text.
